## Vin du Pistolet d'Obernai Owernaner Pistole Wyn

### **Exclusivity from our estate,**

This legendary wine is produced from old plots planted with several Alsace grape varieties.

### **An historic wine:**

In 1562, the Emperor Ferdinand the 1st honoured Obernai with his visit to the town and was invited to taste the town's famous wine.

He found it excellent. Very flattered by his compliments, the mayor informed him that the people of Obernai possessed a vintage, which was even better, but which was strictly reserved for their own consumption.

Indignant by this remark and no doubt disappointed at not having been able to taste this divine brew, the Emperor reacted brutally against that remark, but without losing the dignity incumbent on a person of high rank. He gave a pistol to the mayor and told him to offer it to the person who was more insolent than himself, if ever he managed to find someone.

Since then, this wine, which the people of Obernai drink themselves, is commonly called the "PISTOL WINE".

### **Gastronomy**

To serve fresh for aperitif at 8°C, with seafood, marinated fish, asparagus or for thirst.
